INSTRUCTIONS:

1. Print this sheet, making sure that Page Scaling is set to "none" in the print dialog box. Measure the squares after printing to make sure they printed full size. (4" square for black, 2" square for white)
2. Cut out the two squares. Paper clip or staple each square to the same size square of black (or white) cardstock
3. Cut through both layers with detail scissors or a craft knife.
4. Dashed lines can be scored or cut lightly with a knife to add contours and definition.
5. Layer the pieces to create the tuxedo. *Tip: add the pants behind the jacket as a last step, so they can be placed to make the overall height of the tuxedo 4.25" to fit the Dress Form Pop 'n Cuts™ Insert OR the Dress Up Framelits dress form.*
6. Shirt buttons can be added with a black pen.

BLACK PIECES (4" x 4" square)
